

The Cincinnati Chapter of the American Society of Heating, Refrigerating & Air Conditioning Engineers cordially invites you to save the dates and plan to join us for our 2019-2020 Membership Meetings.

This year our theme will (sort of) follow the theme of Society President Darryl K. Boyce:

Building for People and Performance. Achieving Operational Excellence.

“We must ensure operational performance for the people that live, work, and interact in buildings,” said Boyce. “People must succeed within the buildings we create. Let’s ensure we take the steps needed to achieve effective operational performance and operator experience.”
