THE PRESIDENT’S CORNER

Pete Skelly

Last month’s meeting was a huge success in more ways than one. For starters, we had the scholarship award certificate presentation to University of Cincinnati student Tao Yu. On hand to present the award were Student Activities Chair and President-Elect Mike Mattox and Dr. Raj Manglik, Professor of Mechanical Engineering at UC. We were also lucky to have several first time luncheon attendees on hand to see a very informative presentation by Ron Michael of the Loren Cook Company. Ron was nice enough to follow-up the standard presentation with a tech session covering fan selection basics. I want to thank everyone involved in making for a very nice meeting.

The much anticipated ASHRAE - Cincinnati Chapter website is now operational. I would like to thank Christian Holden for spearheading the project. Special thanks also go out to Joe Dillon and Signal Office Supply for offering to “house” the website at no charge. Please take a look at the results at www.cincinnatiashrae.org

Please remember to sign up for our final luncheon meeting April 12th. ASHRAE Distinguished Lecturer M. Dennis Knight of Liollo Architecture will be in town to discuss Building Performance Analysis. I would like to make one final plea for the manufacturer’s representatives to invite a consultant to the luncheon for a great topic, great meal and PDH credits.

Well it is finally starting to feel like winter is over which means it must be time to sign up for the ASHRAE golf outing. So please put your foursomes together, get your door prizes and hole sponsorships together and complete the form included in this newsletter to reserve your spot today.

Best Regards,

Peter Skelly

M. DENNIS KNIGHT, PE, LEED AP, CCS, CXA
Principal of Practice Management, Liollo Architecture
Charleston, SC

M. Dennis Knight has 35 years of experience providing engineering, design and construction related services within the building industry. Active at the local, state and national levels with various agencies and professional societies, he works to help develop sustainable, integrated building design guidelines.

Nationally, as a member of ASHRAE, Mr. Knight is the Vice Chairman for Research Promotion and also serves as the Chair of Technical Committee (TC) 7.1 “Integrated Building Design” and serves on the ASHRAE BIM Steering Committee. He has also served as the President of the Charleston Chapter twice since he joined the Society in 1979.

As Liollo Architecture’s Principal and Director of Practice Management, Mr. Knight utilizes his extensive experience in the design and construction industries to assist the architectural and design professionals, project managers, business development department and corporate management within the firm and our consultants and clients in the preparation of construction documents (procurement documents, drawings and specifications) and contracts, performs code analysis and product research, prepares LEED Documentation, and prepares design and construction cost estimates. In addition he develops quality assurance checklists and guidelines to help facilitate interdisciplinary coordination during the design and construction phases of a project.

Prior to joining Liollo Architecture, Dennis was an owner and managing member of a local engineering and construction company for 23 years. He strives to facilitate the integration of each element and discipline required in a project, with consideration for the life-cycle costs and benefits related to those elements, so that all the pieces and parts of a design work together in concert with each other and their surroundings.

Cincinnati ASHRAE News

A monthly publication of the Cincinnati Chapter of the American Society of Heating, Refrigeration & Air Conditioning Engineers

Mr. Knight holds an assortment of professional registrations and accreditations. He is a Registered Professional Engineer in South Carolina, North Carolina, Georgia, and Wisconsin. He is a LEED Accredited Professional and is affiliated with the US Green Building Council. Mr. Knight is also a CSI Certified Construction Document Technologist and Constructional Specialist, as well as a ACG Certified Commissioning Authority.

AWARDS AND HONORS

- US Green Building Council South Carolina Chapter Leadership Award, 2008
- AIA Charleston Special Recognition for Outstanding Service to the Community and the Design Profession, 2008
- ASHRAE Research Promotion “Top Dog” Award, 2005, for directing the most successful Research Fund-raising Campaign in all of Society
- Engineer of the Year Award, 2003 Charleston Joint Engineers Society
- Past President Charleston Chapter ASHRAE 1986 and 2000
- Chairman, Construction Board of Adjustments and Appeals, Town of Mt. Pleasant, SC, 1999

LECTURE TOPIC

Building Performance Analysis for Building Performance Rating Systems

This presentation focuses on building performance rating systems and their requirements for energy use reduction and whole building optimization. The program provides an overview of how to use computer assisted building performance analysis systems and ASHRAE 90.1 Appendix G to maximize the design team’s ability to achieve the greatest number of credits when seeking project certification under a building performance rating system.

Mike Mattox and Dr. Raj Manglik present Tao Yu with an ASHRAE Scholarship

HVAC - Plumbing Coordinator/3D BIM Designer (Cincinnati, OH)

Cincinnati's premier mechanical contracting firm is accepting applicants for a full-time plumbing and HVAC coordinator. We have been the leader in the Commercial HVAC and Plumbing contracting industry for over 100 years. We employ 400+ people on job sites from Lexington to Dayton. We are driven by core values that focus on the respect and development of our associates, technology, and processes that provide our customers with the greatest construction value possible.

A minimum of 5 years direct experience coordinating commercial, hospital/institutional, and industrial plumbing and/or HVAC systems is required.

Candidates must have thorough knowledge of state and local codes. Preference will be given to candidates proficient in TSI CAD-Duct or CAD-Mech. 3D AutoCAD MEP, Revit MEP or 3rd party BIM package experience is a plus.

We offer a competitive compensation package with benefits including health care, dental, vision, life, and long term disability insurance, and 401k plan. Income will be commensurate with qualifications and level of experience. Opportunities for growth and career advancement are offered within our team.

It's never been easier to save money on your office products through the partnership with Signal Office Supply. Signal Office Supply is offering ASHRAE Cincinnati members special pricing on over 100 core items. Contact Joe Dillon at 513-821-2280 and mention "ASHRAE Discount".

EAP, Inc. is hiring for 2 full time Outside Sales Representative positions in 2011.

EAP, Inc. is a manufacturer's representative firm specializing in commercial and industrial HVAC equipment, systems and services. For more than 35 years, EAP has sold products and services to some of the areas largest businesses and institutions. Our brand new corporate headquarters is located near the Redbank Expressway in Fairfax, Ohio. We service the Greater Cincinnati and Dayton areas, Columbus, OH, Northern Kentucky and Southeastern Indiana. EAP also maintains a 30,000 square foot distribution center with readily available stock product.

Job Description:

- To sell products and services to both new and existing accounts, and to be able to solicit new business from these accounts
- Develop and build relationships with our clients, our employees and the manufacturers we represent
- Sustain a dominant level of customer service
- Manage and facilitate client requests
- Process submittals and orders
- Effectively manage your own book of business

Personal Characteristics:

- A superior work ethic, the ability to learn, and adapt to our industry
- Self-motivated
- Superior time management skills
- Schedule flexibility
- An ability to take direction
- A positive attitude and the ability to work with the rest of the EAP Family
- Excellent communication skills, verbal and written

Requirements:

- Experience in sales is an absolute requirement. A mechanical background or engineering degree is advantageous but not necessary.
- Explicit knowledge of our HVAC Industry is also an advantage.
- Superior communication skills and advanced computer skills are required.
- National and regional travel will be required

Additional Information:

Job Available Date: January 2011

Career Level: Experienced

Education Level: 2- or 4-year College
Technical College

Job Status: Full-Time

Job Type: Employee

Salary: TBD

If you are interested in becoming part of EAP's sales team, please send your resume to
