

# Cincinnati ASHRAE News

A monthly publication of the Cincinnati Chapter of the American Society of Heating, Refrigeration & Air Conditioning Engineers

## The President's Corner

David Deger

It appears Winter has decided to finally sneak in. Thank you for your continued support of ASHRAE.

Our next meeting is Tuesday, November 15<sup>th</sup>. November's topic is "The What, When, How, and Why of Next Generation Refrigerants for HVAC Applications". Due to global warming or more importantly CO2 regulations, there are many changes that are occurring in our industry that affect the products we currently use and the products of the future. This has to do with the types of refrigerants we use in both our small and large HVAC systems. This meeting is first step towards understanding the new regulations that the EPA has begun to approve and affects our entire industry. Mike Thompson has been involved with refrigerant discussions and lobbying for over 20 yrs and can share insight to the past, present, and future of refrigerants. We meet at the Crowne Plaza Cincinnati Blue ash at 5901 Pfeiffer Road.

Please plan to attend and RSVP at the attached eventbrite invitation.

<https://www.eventbrite.com/e/ashrae-cincinnati-november-2016-luncheon-tickets-29253740726>

or email the standard form to Laura Kamphaus at [laurakamphaus@zoomtown.com](mailto:laurakamphaus@zoomtown.com)

Although the list to the right shows positions open, they are filled thanks to so many volunteers last month.

We will have a special guest for our December meeting.

Thank you for your ongoing support of ASHRAE and the Cincinnati chapter!
