

Cincinnati ASHRAE News

A monthly publication of the Cincinnati Chapter of the American Society of Heating, Refrigeration & Air Conditioning Engineers

The President's Corner

David Deger

I am pleased to kick off the 2016-2017 year. Thank you for your continued support of ASHRAE.

Our first meeting of the year is Tuesday, October 11th. October's topic is "Adaptive Controls for Environmentally Conscious Closed Circuit Cooler Systems" Presented by Ian Levy, Senior Engineer with Evapco. For those new to the Cincinnati chapter, our typical meetings are luncheons held the second Tuesday of each month running October through April. We meet at the Crowne Plaza Cincinnati Blue ash at 5901 Pfeiffer Road. This is our first luncheon of the year, so sign up now.

Please plan to attend and RSVP at the attached eventbrite invitation.

<https://www.eventbrite.com/e/ashrae-cincinnati-october-2016-luncheon-tickets-28147680470>

or email the standard form to Laura Kamphaus at laurakamphaus@zoomtown.com

We had good, consistent meeting attendance last year, and need some of that support to carry over onto the local Board. Please see the openings to the right and let us know if you are able to volunteer a little bit of time to support and take on a role.

May's golf outing was well attended with close to 100 people participating. Thanks to all who planned and attended.

The 2016 Region V CRC was held in Dayton at the end of July. Our Chapter was awarded the Blue Ribbon for Research Promotion for our local contribution of \$10,511! Thank you Joe Zirkelbach for continuing to spear-head research promotion. CMTA and Brian Rose received 1st place for the Region V Technology Awards for their work on the Cincinnati Police District 3 HQ – Net Zero project!

Let's make it another great year.
